Brace & Support & Splint Supplier

---

ZINGCONT CO., LTD

# ABOUT US

ZINGCONT, is a company focused **on orthosis, brace, support**, medical instruments products. We shall be fast and discreet, and so is our work and attitude. We makes every effort to better our products and serve our commitments to our customers. Our products and service matters lives of human beings which allows no hesitation and ignorance to the business. After years growth and development, we has become a professional supplier of custom orthosis, braces and support on the global stage, offering a full range of OEM/ODM/OPM. We also are small business-friendly by making low MOQ orders possible. We're the most trusted low-MOQ sports brace manufacturers that carry a rich history of working with both start-ups and famous brands, and we can launch your products successfully as well. ZINGCONT are lucky to embrace a young and dedicated team. We would like to be your first choice of business partner when you need better medical product and professional service. Try contact us and make a right choice. Together with your partnership, time will prove all the benefits.

## Our Faith

To be more than just a sports brace and orthosis manufacturer. We aims to become an end-to-end solution provider to our overseas clients and become the most respected private label manufacturer company in terms of international quality standards, customer services, and craftsmanship.

## Our Team

We have a passionate team of talents with sound exposure to the international brace industry. Our team includes product managers, designers, technician, QC, Sourcing agents, and manufacturing specialists who provide services from design, pattern making, technical specifications, and sampling to low minimum stock production.

## Our Mission

We love brace design and production, enjoy creating products for people to prevent injury, recover faster, and stay protected yet active after injury. we are committed to simplifying the manufacturing requirements for our clients with a great sense of design details, turn around time, and quality expectations.
